

# PASSENGER CAR TYRE SIDEWALL MARKINGS

- (1) Manufacturer (brand)
- (2) Tyre size
- (3) Speed class
- (4) Type (for example, M+S -> winter tyre)
- (5) Load index (LI)
- (6) Maximum load (1 LBS = 0.454 kg)
- (7) Maximum pressure (1 PSI = 6.9 kPa)
- (8) Ply materials + number of plies on tread and sidewalls
- (9) Tubeless (TL)
- (10) Tube-type (TT)
- (11) Radial (practically all tyres)
- (12) Reinforced (Load index 4 LI units higher than that of non-reinforced tyres)
- (13) E-approval, or other special marking
- (14) Manufacturing code or week/year (for example, 258 = week 25 in 1998)
- (15) UTQG grading (Uniform Tire Quality Grading)
- (16) Rotation direction
